

POSTER PRESENTATION AWARD JUDGING SESSION

Location : **Ballroom Foyer (In front of Ballroom, Lobby Level)**
 Date : **2 August 2024**
 Time : **17:00–17:45**
 Format : **4 minutes presentation + 1 minute Q&A**

**This schedule is subject to changes.*

Time	ID	Research Title	Category	Presenter
17:05 PM	97	Phylogenetic analysis and inhibitor designing against histidine kinases of dimorphic fungi: An in-silico study	Ecology/ Fundamental/ Basic mycology	Karuna Singh
17:10 PM	99	Molecular Diagnostic Approaches for Pneumocystis jiroveci Pneumonia in Immunocompetent Individuals	Diagnostic mycology	Bansidhar Tarai
17:15 PM	100	Diagnostic performance of in-house Real time PCR assay on whole blood for diagnosis of Invasive Aspergillosis & Invasive Mucormycosis	Diagnostic mycology	Tamanna Bordoloi
17:20 PM	209	Antifungal susceptibilities of mold isolated from multicenter of northern China	Antifungal susceptibility and resistance	Y. Wang L. Zhang
17:25 PM	240	Role of an AcuM transcription factor in the control of multiple cellular metabolisms in an opportunistic fungus Talaromyces marneffeii	Ecology/ Fundamental/ Basic mycology	Monsicha Pongpom
17:30 PM	257	Antifungal susceptibility to six antifungals of clinical Mucorales isolates: a single-center study in China, 1998-2022	Antifungal susceptibility and resistance	Su Chen

E-POSTER PRESENTATION SCHEDULE

Listed e-Poster entries in this schedule are available for viewing on e-poster panels located in the Ballroom Foyer and Exhibition Hall, Lobby Level.

Category: **Antifungal agents**

**This schedule is subject to changes.*

ID	Research Title	Submitter / Presenter
141	Real world study on effectiveness and safety analysis of liposomal amphotericin B in patients with hematologic malignancies with invasive mycosis infections from China	Yang Zilong
204	Coriandrum sativum extract as a novel therapeutic agent or immunoenhancer against Candida auris infection?	Ka-Hei Choi

Category: **Antifungal susceptibility and resistance**

**This schedule is subject to changes.*

ID	Research Title	Submitter / Presenter
50	Investigating The Antifungal Efficacy of Cinnamaldehyde Against Geotrichum candidum, A Causative Agent of Subungual Onychomycosis	Mahek Sharan
81	Correlation between NOP4 and GIS2 in clinical isolates of itraconazole-resistant Candida albicans	Jing Yang
102	CO2 sensing pathway controls drug resistance and skin tropism in Candida auris	Trinh Phan-Canh
107	The effects of SAP2 and STP1 of Candida albicans on itraconazole resistance in different conditions	Wenli Feng
192	Frequency and Antifungal Susceptibility Patterns of Isolated Filamentous Fungal Organisms in A Tertiary Hospital Laboratory: An Analytic Cross-Sectional Study	Jonahmae H. Bandico
201	Analysis of ERG11 gene mutations in C. albicans clinical isolates from Pakistan	Sadaf Zaka
202	Antifungal sensitivities of common Mucorales species isolated from sino-nasal specimens in Sri Lanka from 2014 to 2021	P.I. Jayasekera
203	Antifungal susceptibility profile of Cryptococcus neoformans strains from Pakistan	Tooba Raheem
220	Fluconazole Prophylaxis in Head and Neck Cancer Patients: Impact on Candida albicans Susceptibility and Adhesion	Phimchat Suwannaphong
230	Antifungal Susceptibility Profile of Candida haemulonii species complex Isolated from Clinical Specimens in Malaysia between 2019 to 2021	Murnihayati Binti Hassan
255	In vitro activity of the novel antifungal Olorofim against multiresistant Fusarium in China	Ruoning Xue
285	Antifungal susceptibility and molecular characteristics of Cryptococcus spp. based on whole-genome sequencing in Zhejiang Province, China	Xi Li
293	Frequency of Fluconazole resistant candida species in High Vaginal swabs	Sobia Muhammad Asad Khan

Category: **Management of fungal diseases**

**This schedule is subject to changes.*

ID	Research Title	Submitter / Presenter
33	A case report on Penicillium Citrinium meningitis- the survivor	Peacchaima Purusothman
39	Invasive Central Nervous System (CNS) Aspergillosis in a Renal Transplant Patient	Lee Cheok Hon
51	Is Candida auris bloodstream infection present in Sri Lanka? A case report	L.S.M.Sigera P.I. Jayasekera
56	An Unusual Case of Ustilago species Fungal Peritonitis	Sisca Herrianti Gunawan
60	The Veiled Peril	Wan Nurliyana Wan Ramli
68	Efficacy and safety of liposomal amphotericin b (Ambisome) as salvage therapy for invasive fungal disease in haematological patients: a retrospective study in eastern China	Xiaohui Hu
119	FATAL INVASIVE PULMONARY ASPERGILLOSIS IN IMMUNOCOMPETENT HOSTS WITHOUT UNDERLYING LUNG LESION	Sahlawati Mustakim
137	Serum cryptococcal antigen detection: a preventable strategy in People Living with HIV (PLHIV) with CD4$\lt; 200\text{cells/mm}^3$	Shukla Das
158	Disseminated Candidiasis with Immune Reconstitution Inflammatory Syndrome (IRIS) in a child with Acute Lymphoblastic Leukaemia	Christopher Seow Wen-Xing
163	Pancreatic fungal infection can be mimicking pancreatic tumour, a neglected tropical disease	Yeow Yong yaw
173	Intermittent Polyene Combined with Fluconazole for Consolidation Therapy of Cryptococcal Meningitis to Reduce the Relapse Rate: Cases Report	Shaling Li
174	Predictor of Mortality in Patients with Chronic Pulmonary Aspergillosis: A Retrospective study from Karachi, Pakistan	Muhammad Irfan
182	Invasive Aspergillosis - a fungal infection in an infant following HSCT	P.I. Jayasekera
185	A rare presentation of Basidiobolus ranarum – A neglected tropical mycosis	P.I. Jayasekera
196	An immunocompetent infant with palatal mucormycosis following DHF treated for the longest reported duration from Sri Lanka. A case report.	P.I. Jayasekera
198	An uncommon fungal pathogen causing central nervous system infection: A case report	P.I. Jayasekera
199	A relapsed case of disseminated histoplasmosis A case report from Sri Lanka	P.I. Jayasekera
213	INVASIVE SINO-ORBITAL ASPERGILLOSIS IN A DIABETIC PATIENT: A CASE REPORT	Jofen Ann Tangpuz

245	Reasonable multidisciplinary management successfully treated refractory pulmonary mucormycosis with multiple organ failure without surgical indication	Jizhen Wu
258	Triple Threat: A Case of Unmasking Cryptococcal Meningitis Immune Reconstitution Inflammatory Syndrome in a TB-HIV patient	Ralph Aniceto Jenni Shannin Alip Mark Andre Grisola
290	CANDIDA AURIS INVASIVE INFECTION AFTER PERITONEAL DIALYSIS: A CASE REPORT	Samavia Mehmood

Category: **Cutaneous/superficial and subcutaneous fungal infections**

**This schedule is subject to changes.*

ID	Research Title	Submitter / Presenter
34	A case of sporotrichosis	Xinyu Yang
200	A body armour of Basidiobolomycosis- A case report	P.I. Jayasekera
207	Improved Strategy for Detection of Dermatophyte Infection	Esther Ong Chii LAU
228	Fingernail Onychomycosis Secondary to Aspergillus niger	Azlina Binti Ibrahim
234	Disseminated Cutaneous Sporotrichosis : A Challenging Case in a Gardener.	Rukumani Devi Velayuthan
238	A Case Report of Cutaneous Nocardiosis in an Immunocompromised Elderly Male: Unveiling the Enigma	Krishna Sarkar
241	Medicopsis romeroi infection in a ganglion cyst- a rare case report from India	Dibyashree
259	Prevalence of Non-dermatophytic dominated Onychomycosis in a tertiary care hospital in foothills of Himalayas	Upasana Bhumbla
265	An update on Sporothrix schenkii infections in Klang Valley, Malaysia and evaluation of azole antifungal susceptibility	Jacinta Santhanam
272	A deadly cutaneous sporotrichosis case	Ting-Shu Wu

Category: **Diagnostic mycology**

**This schedule is subject to changes.*

ID	Research Title	Submitter / Presenter
142	Fungal diagnostics capacity in Malaysia: a survey across 48 laboratories.	Siti Hawa Hamzah
164	Rhizopus pancolitis presenting as a case of fatal diarrhoea in a diabetic adult.	Yogita Verma
190	Invasive infection caused by Candida utilis in a child with haematological malignancy	Muhammad Fadzil Bin Shahib Rukumani Devi Velayuthan
191	Identification and Antimicrobial Susceptibility Tests of Cryptococcus neoformans from clinical specimens in Adam Malik Hospital Indonesia: a cross-sectional study	Cherry Siregar
208	Sporothrix schenckii sensu stricto cause of human sporotrichosis in Chiang Mai, Thailand	Kanya Preechasuth
223	Rapid detection of serum galactomannan in post-TB patients suspected with Chronic Pulmonary Aspergillosis (CPA)	Nadira Adriana Devi
225	Measurement of serum C-reactive protein (CRP) in post-TB patients with suspected chronic pulmonary aspergillosis (CPA)	Tsaqif Shafa Shabira
256	DNA barcoding Fusarium species isolated from keratitis patients; the application for routine identification	Waewta Kuwatjanakul Kittipan Samerpitak
278	Comparison of the Performance of Two Cryptococcal Antigen Detection Tests: Chemiluminescence and Colloidal Gold Method	HaiYang Liu Xi Li
297	Mystery in the Lungs: The First South Indian Case of Triadelpia pulvinata	Jyotismita Rajbongshi

Category: **Epidemiology**

**This schedule is subject to changes.*

ID	Research Title	Submitter / Presenter
78	Clinical Characteristics and Outcomes of Invasive Fusariosis in Thailand: a 12-year Retrospective Study	Teera Leepattarakit
98	Probable relatedness of dengue and fungal infection- A case series from multi-speciality hospital in India	Bhaskar Rana
168	Exserohilum keratitis following sugarcane leaf injury in an immunocompetent young male - a case report	Yogita Verma
188	Specificities of the physiopathology of Mucormycosis in South China	Pan Kaisu
214	Characterisation of Candida species isolated from cases of neonatal candidemia in Northeast India	Khurajam Ranjana Devi Y. Bidyalakshmi Devi
218	Molecular Epidemiology and In-Vitro Antifungal Susceptibility of Cryptic Aspergillus species from Clinical and Environment samples	Aish Manhas
254	Diagnosing cerebral phaeohyphomycosis (2010-2023): experience of a clinical laboratory from Pakistan	Joveria Farooqi
306	Prevalence of Mycotic Keratitis: Experience from a tertiary care center in the foothills of Indian Himalayas	Sowjanya Perumalla

Category: **Ecology/Fundamental/Basic mycology**

**This schedule is subject to changes.*

ID	Research Title	Submitter / Presenter
46	Exploring the Gut Mycobiome in Ulcerative Colitis Patients through Culturomics Analysis	Piyapat Rintarhat
47	The effect of different states of Cdc42 gene on the polar growth of <i>Aspergillus fumigatus</i>	Yan Ma
186	The Role of Intracellular Conditions in Transition of Thermally Dimorphic <i>Talaromyces marneffeii</i>	Apichaya Sriwarom
187	<i>Prototheca wickerhamii</i> genome prediction directly from hemoculture by Oxford Nanopore Technology	Nattapong Langsiri
262	Deciphering the Function of Gut Mycobiome in an Indigenous Tribal Group of India	Pallak Sharma
264	Study on microevolution from <i>Phialophora verrucosa</i> proteomics	Yalong Li
268	Optimization of coprogen B production in the <i>Talaromyces marneffeii</i> siderophore-enhancing strain	Tanaporn Wangsanut

Category: **Infection control, prevention and antifungal stewardship**

**This schedule is subject to changes.*

ID	Research Title	Submitter / Presenter
167	Rare <i>Emergomyces orientalis</i> pneumonia: report of two cases	Liubo Xiong
195	Investigation of the built environment for mould contamination (Revised version of Abstract ID: 89)	L.Shamithra.M.Sigera
205	Rhino-orbital-cerebral mucormycosis in a child after hematopoietic stem cell transplantation- A case report	Xiaoxi Lu
274	Unusual Disseminated <i>Talaromyces Marneffeii</i> Infection Presenting with Fever and Rash in a HIV-Negative Patient: A Case Report	Juan Liu Chuang Nie Na Cheng Tianxin Xiang

For reference - Abstract categories:

1. Antifungal agents
2. Antifungal susceptibility and resistance
3. Management of fungal diseases
4. Cutaneous/subcutaneous/superficial fungal infections
5. Diagnostic mycology
6. Epidemiology
7. Ecology/fundamental/basic mycology
8. Infection control, prevention, and antifungal stewardship
9. Pathogenesis and immunity
10. Clinical description of cases
